Introduction

1. Section 88P of the School Standards and Framework Act 1998 (the Act) requires every local authority to make an annual report to the adjudicator. The Chief Adjudicator then includes a summary of these reports in the annual report to the Secretary of State for Education. The School Admissions Code (the Code) sets out the requirements for reports by local authorities in paragraph 6. Paragraph 3.30 specifies what must be included as a minimum in the report to the adjudicator and makes provision for the local authority to include any other matters. Paragraphs 6 and 3.30 of the Code require that each local authority publish its report locally.
2. **This year's report must cover the 2023/2024 academic year and be submitted to the Office of the Schools Adjudicator (OSA) by 31 October 2024.**
3. Please note that, in response to feedback on the previous template and in the light of consultation with a group of local authorities, changes have been made to various sections of this year's template.

Guidance on completing the template

4. We have included all the guidance on completing specific parts of the template in this section. There is no requirement for local authorities to include the introduction and the guidance in their published reports, but they are free to do so if they wish.
5. We should be grateful if in completing questions which ask for information about primary and secondary schools and/or pupils, local authorities would follow the approach to classification of schools used in statutory provisions and in the Department for Education Statistical First Release¹ and the Education Middle School (England) Regulations 2002².
6. The Code sets out some minimum requirements on the contents of each local authority report stating that each must cover as a minimum "information about how admission arrangements in the area of the local authority serve the interests of looked after children and previously looked after children, children with disabilities and children with special educational needs, including any details of where problems have arisen."
7. The Department for Education's aim through the annual reports from local authorities is to understand how well the admissions system is working nationally, rather than to hold individual local authorities to account. By understanding the effectiveness of the system, including outcomes, the Department hopes to identify areas where the admissions system is working well and areas where it could be improved. With that in mind, when the template asks, "how well does the admission system serve the needs of

¹ [Department for Education Statistical First Release](#)

² [The Education Middle School \(England\) Regulations 2002](#)

children,” the Department appreciates that it is asking local authorities to make a subjective judgement, in the understanding that everyone’s experience with the admission system will be different. The Department encourages local authorities in responding to the open questions and spaces for open comments to set out challenges that are proving difficult to overcome.

8. Guidance on specific questions and/or meaning of specific terms in this report:

- a. “in-year admissions”: This means admissions (that is children admitted to a school and not applications for places):
 - i. to a year group which is not a normal point of entry for the school concerned (for example to Year 2 for a five to eleven primary school); and
 - ii. after the end of the statutory waiting list period (31 December) to a year group which is a normal year of admission for the schools concerned (such as Year R and Year 7).
- b. Not applicable means that there were no children falling within the relevant definition.

9. We welcome all comments that local authorities make in the comment boxes and we aim to reflect those comments in the Annual Report, but we ask for the comments to be entered under the right headings. Section 3 invites comment on any other matters not specifically addressed in this template if local authorities wish to do so. The views expressed in previous years also remain a matter of public record.

10. We ask that where possible, you return the template in Word instead of PDF formatting. A number of you have commented on the formatting of the template and we have tried to make it as accessible as possible, but we are aware that some local authorities use different versions of Word.

11. Where questions request a comparison with the previous year, any new local authorities formed as a result of reorganisation should note this on the form.

Information requested

C. Special educational needs and/or disabilities

- i. How well served are children with special educational needs and/or disabilities who **have** an education, health and care plan that names a school at **normal points of admission**?

☐ Not at all ☒ Not well ☐ Well ☐ Very well ☐ Not applicable

Please provide any comments you wish to make on the admission of children with special educational needs and/or disabilities at normal points of admission:

We are increasingly finding that mainstream high schools return to us saying they can't meet the needs of children, even with high levels of financial support. There is also an increasing demand for new EHC assessments from parents/settings. Meaning a higher proportion of children with an EHCP, who may not be suitable for mainstream settings.

LA's are continuing to feel pressures also within Mainstream settings that are either not adequately trained to support children with SEN or they feel numbers of SEN in their setting are too high. Some mainstream settings often feel they are inadequately staffed or cannot offer provision outlined in Section F.

Parents are also often requesting special schools, even though their children have not yet started education. Or parents being supported by SENDCO's who advise their child's needs would be better met in a special school, even though professional advice does not support this.

There is a huge challenge with Early years settings submitting very late EHC

applications for very complex children, this often leaves no time to consult appropriately and often means spaces are often already allocated.
There is lots of work to be done with Early Years settings.

There are excellent examples of inclusive primary schools that are an example to others, set out in section C below.

Section 2 - In-year admissions

A. Which of the following best describes the overall level of challenge for your in-year admissions in 23/24 compared to 22/23?

Phase	Much less challenging	Less challenging	No change	More challenging	Much more challenging
Primary			x		
Secondary			x		

If you wish, please explain the factors that have changed the level of challenge for your in-year admissions:

B. Looked after children and previously looked after children

- i. How well does the **in-year admission** system serve children who are looked after by your local authority and who are being educated in your area?

☐ Not at all ☐ Not well ☐ Well ☒ Very well ☐ Not applicable

- ii. How well does the **in-year admission** systems in other local authority areas serve the interests of your looked after children?

- iii. How well does the **in-year admission** system serve the interests of children who are looked after by other local authorities but educated in your area?

☐ Not at all ☐ Not well ☐ Well ☒ Very well ☐ Not applicable

- iv. How well does your **in-year admission** system serve the interests of previously looked after children?

☐ Not at all ☐ Not well ☐ Well ☒ Very well ☐ Not applicable

v. If you wish, please give examples of any good or poor practice or difficulties which support or exemplify your answers about **in-year admissions** for looked after and previously looked after children:

C. Children with special educational needs and/or disabilities

- i. How well served are children with special educational needs and/or disabilities who **have** an education, health and care plan that names a school when they need to be **admitted in-year**?

☐ Not at all well ☒ Not well ☐ Well ☒ Very well ☐ Not applicable

- ii. How well served are children with special educational needs and/or disabilities who **do not have** an education, health and care plan when they need to be **admitted in-year**?

☐ Not at all well ☒ Not well ☐ Well ☐ Very well ☐ Do not know

- iii. Please give examples of any good or poor practice or difficulties which support or exemplify your answers about **in-year admissions** for children with special educational needs and/or disabilities:

Schools can vary immensely in their approach to the in-year admission of SEND children and young people, hence both the “Not well” but also “Very well” boxes being ticked in C (i) above.

Again we face regular challenges with schools saying they can't meet needs, the challenges are far louder than the examples of good practice.

Particular challenges largely lay within the secondary sector rather than primary.

Exemplar primary schools are Woodside, Westfield, Gorsewood, Kingsway. Very inclusive schools who continue to be creative within their provision to support students.

There continue to be challenges with other boroughs who do not consult appropriately either, but rather go directly to schools, and even direct.

D. Fair access protocol

What proportion of the state-funded mainstream schools in your area have said that they agree to the local authority fair access protocol?

Primary

Between 0% and 49% ☐

Between 50% and 74% ☐

- ii. If you have seen a change in the number of children referred to your Fair Access Protocol between 1 August 2023 and 31 July 2024 compared to the previous academic year please indicate what you consider the key reasons for this change to be?

- iii. How well do you consider children referred to the Fair Access Protocol are served in in your area?
